II. MINING AND RECLAMATION

1. Was the mine active during the past year? Yes ☒ No ☐

2. If active, how much ore or mineral was mined? 76.65 Tons

3. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, volume of material moved, and the acreage affected.

No additional surface disturbance has occurred in the past several years. All mining by our operations has occurred underground and have not required additional disturbance for ore removal. It is our ongoing practice to keep our surface disturbances to a minimum.

4. Briefly describe the reclamation work performed during the past year. This description should include acreage reclaimed, methods employed, and an evaluation of the results.

General clean up of effected area - Removal of unused equipment - General road maintenance was also performed. A continued daily security watch has virtually eliminated illegal dumping by county residents in the area.

5. What was the total unreclaimed acreage at years end? Under 2 acres

6. Briefly summarize mining and reclamation planned for the upcoming year.

Continued under-ground operations - Continued clean-up of surrounding areas -
Continue security watch - and general road maintenance. It is our intention
to keep this mining operation a safe, clean and in environmentally stable
condition.

NOTE: Section III., "Additional Information" applies only to large mining operations.

III. ADDITIONAL INFORMATION
